

Room disinfection

ND CleanMove4

Areas for use:

- Mobile disinfection of air and surfaces

For use in:	
<ul style="list-style-type: none"> • Medicinal industry 	<ul style="list-style-type: none"> • Maturing rooms
<ul style="list-style-type: none"> • Food production 	<ul style="list-style-type: none"> • Laboratories
<ul style="list-style-type: none"> • Cleanroom industry 	<ul style="list-style-type: none"> • Dairy
<ul style="list-style-type: none"> • Hospitals 	<ul style="list-style-type: none"> • Kitchens

Unit description:

CleanMove4 is a removable module on wheels that is easily transported round for disinfection of air and surfaces. The disinfection rate is up to 99,9% on a wide range of bacteria, viruses and fungi on all light-accessible surfaces.

The unit has a treatment radius of 3 meters at a treatment time of approx. 30 min.

To ensure optimal disinfection in all directions, ND CleanMove4 is equipped with 4 pcs. 90W lamps, which are mounted in a closed protective tube made of quartz glass. The glass is coated with a special film that ensures glass splintering.

The unit is on wheels with locking function, as well as a 10-meter cable, to ensure mobility and easy operation. There is an emergency stop on CleanMove4, but it is switched on and off at a safe distance so that people are not exposed to radiation.

Replacement of bulbs is easy and without the use of tools.

Disinfection capacity:

Guaranteed UVC dose	Distance from the UV lamp	
	2 m	3 m
200 J/m ²	15 minutes	30 minutes
300 J/m ²	20 minutes	45 minutes

The UV lamps:

The UV lamps are known for long durability, high degree of disinfection and low energy consumption. The device configuration allows easy access to bulb replacement and other maintenance.

The lamps are designed for a lifetime of 10,000 hours

Technical data:

Type & mark	ND CleanMove4		
Dimensions H x B x D in mm	1400 x 620 x 620	Weight	45 kg.
Number of lamps	4	Electric connection	110-240V 50/60Hz
Lamp model	4 x ND Air 90W	Effect	4 x 90W
Life span on bulb	10.000 hours	Fuse	10A

Accessories:

- Timer that counts operating hours to ensure proper bulb change
- Cleaning kit for quartz glass cleaning
- Special cloth and cleaning liquid
- Delayed ignition

Other products in the air family:

Also available in a single unit.

Units for other use: Surface disinfection, water, air disinfection active and passive, Cleanbox and Tunnels.

Warning:

UV radiation is dangerous for your skin and eyes! Both your eyes and skin must be appropriately protected from the direct UV light.

The user will be responsible for his own safety, as well as for the safety of people who are staying in areas where these units are being used. Please bear in mind that materials which are not UVC-resistant may be damaged.
