The UV-Lamps:

The UV-lamps are known for long durability, high degree of disinfection and low energy consumption.

The configuration of the unit allows for easy access to changing of the bulb and other maintenance.

The Lamps are designed for a lifetime of 10.000 hours

Technical data:

Type & mark	ND Active Air 48		
Grade of disinfection of 80%	approx. 100 m ³ room volume with continuous use		
Grade of disinfection of 88%	approx. 45 m ³ room volume		
Capacity of treatment	24 m ³ /h	Lifetime on bulb	10.000 hours
Housing, length	700 mm	Maximum temperature	40°C
Housing, width	130 mm	Numbers of lamps	1
Housing, height	130 mm	Housing type	IP 54
Weight	6 kg.	Electrical connection	110-240 V 50/60 Hz
Effect & fuse	48 W & 10A		

Accessories:

- Timer that count the operation hours of the lamp, in order to secure correct bulb change.
- Mounting set for easy mounting of unit on wall. Includes clamps for stainless unit and clamps for control box.

Other products in the air family:

Single units 90 W and multiple units

Units for other use: Surface disinfection, water, air disinfection active and passive, Cleanboxes and Tunnels.
